

Teviot Dental

Above all care...

Teviot Dental delivers a premium dental service unrivalled in the Borders. The basis of a beautiful smile is a healthy mouth and neither is achieved without a proactive approach towards dental wellbeing. Like us, our clients take dental health and an appealing smile very seriously. They understand the relationship between a natural, beautiful smile and personal and professional success. Their investment in dental wellbeing reflects the importance they attach to the achievement of this goal. Our substantial investment in cutting-edge technology, combined with an approach that makes the journey as satisfying as the result, sets us apart. Our clients value the personal touch: convenient consulting hours supported by a personal reminder service; a tailored after-care pack; out-of-hours concierge service on Saturday mornings, and the chance to simply relax in a calm environment. Most of all they appreciate the results we achieve: a dazzling, natural-looking smile, fresh breath and a life-long ability to chew, laugh, talk, whistle, yawn, kiss...

We are the primary source of referral for dental implants and other complex, cosmetic dental treatments in the Borders. Our clients don't suffer the inconvenience of travelling to one of the major cities or abroad for treatment. Our superb workmanship is accompanied by an exclusive, complimentary two-year service and warranty package. This is not cosmetic dentistry, this is cosmetic artistry. An investment in cutting-edge cosmetic dentistry reflects a desire for a healthy, beautiful smile and that's exactly what Teviot Dental creates.

opening times

Monday to Friday:
